“ Charles was one of my preceptors during paramedic school. He tried to teach me the art of one speed and it will all get done. Unfortunately, I had to learn that the hard way! But he did teach me the importance of being prepared, because that truck of his was never without supplies! If you needed it he had 2 of them. I like to think I took that with me much to some peoples chagrin. I have heard nothing but wonderful stories of Charles's expertise and hilarious dry humor. EMS doesn't shine quite as bright today, one of its stars is gone . RIP Charles your work is done.

“ Gale, Tori & Little Charlie...I am blown away by Charlie's passing. But he is in such a better place and is at peace.

*I can remember the first time I met Charlie at the hospital. He had brought in "Betty" on the ambulance and she was "pregnant" with her usual alligators and this time Charlie was the father and I was the "bitch" that made him get her pregnant! That was my first meeting with "Betty" and my funniest memory of Charlie!*

*I do know the pain you guys are feeling but God is there to see you through these tough times. Hang in there. I will be praying for you guys. God bless you in the coming days.*

“ I worked with Charles on jfd in its hay day he was on a shift which was my shift I did work with him on occasion on another shift for overtime. I remember how calm he always was no matter how bad the call was also I remember that no matter how cold it was he never wore a jacket. Lawrence mack and myself spent some time with him right after I retired from the state about a year ago .he kept wanting us to come back and go fishing .I will miss him a lot.
