“ Logan, i will forever miss going out with you and it only bein me and you on the dance floor We had no care in the world and you definitely didn't have any rhythm. I'll miss seein you and Kobe argue over who my momma liked the most and all of our steak nights. You always loved my kids like they were your own and spoiled them just as much as i did. From living next door when we were babies to me ending up being your sister n law I've seen and watched you grow into a hard working and caring man. i could never imagine my life without you. I won't say goodbye but i will say until we dance again my sweet brother.
