“ *I only knew Ms. Ruby for about a year while I was her nurse. Nights can be long until u meet the right one. She asked me hundred of questions until she found out I was a member of Springhill Baptist Church. She would tell me of stories from the past, ask about church members. Well, me being new to church and community, I didnt know everybody. Her famous words were, " well get in there and meet them." I heard all about her family and how much she missed them. And her granddaughter, Kelli, meant the world to her. She lived for the days for her to take her home for a few days. We talked about losing her daughter and since I didnt have my mom close she told me I could be her daughter. What a honor for me. I know where Ms. Ruby is now, laughing, singing and praising her Jesus. And loving her momma, daddy(whom I heard all about), her daughter. Until we meet again Ms. Ruby, I love you!!!,*
